1 Purpose

This document provides guidance on Large Cash Transaction Reporting (LCTR) and applies to all employees who complete transactions for Members.

All LCTs trigger the requirement for the Credit Union to submit a Large Cash Transaction Report (LCTR) to FINTRAC within 15 calendar days.

Large Cash Transaction Reporting (LCTR)	In accordance with the <i>Proceeds of Crime Money Laundering Terrorist Finance Act</i> (PCMLTFA) and its corresponding Regulations, the Credit Union has reporting requirements for cash deposits equivalent to or greater than \$10,000 Canadian Dollars (CAD) deposited with the Credit Union within a 24-hour period. This 24-hour period is fixed within a single business day and runs from 12:00am to 11:59pm.
--	--

2 Responsibilities

Branch Employees	Submit LCT information to the AML Compliance Department: - The Banking System triggered Transaction Exception #127 and eReceipt method, or - Direct email to the AML Compliance Department method: aml@beemcreditunion.ca - Use when Transaction Exception #127 is not triggered but the transaction or combination of transactions constitutes an LCT.
AML Compliance	Aggregates the required information from the Banking System, e-Receipt, and all other available sources and submit the LCTR to FINTRAC in accordance with the Regulation.

3 General Requirements

The following must apply:

All cash transactions must be deposited to an account.
All transactions, including LCTs, must be conducted in accordance with the DNA Deposit-Withdrawal Transaction Guidelines.
The purpose of the transaction must be identified, recorded, and reported.
Non-member conductor cash deposit transactions must be conducted in accordance with the Non-Member Transactions Guidelines
LCTs are Triggering Events requiring a KYM review of the affected members and Transacting Person (Conductor), refer to the Triggering Events Guidelines.
Transaction Exception #127 will be generated for all cash deposits of \$5,000 or more CAD equivalent.

- Required record keeping must be recorded in the eReceipt for all cash deposits of \$5,000 or more CAD
- All LCT information must be submitted to AML Compliance on the day the LCT occurs. AML Compliance will report all resulting LCTRs to FINTRAC within 15 calendar days of the transaction.
- Branch management is explicitly responsible for the accuracy of all LCTs, the completion of all KYM, and regulatory requirements.

4 Large Cash Transaction Definition

A LCT is any cash deposit in any currency which equals or exceeds \$10,000 CAD made in a single transaction or multiple transactions within a consecutive 24-hour period (12:00am – 11:59pm):

- Conducted by the same individual
- Received by the same account holder (Beneficiary), whether through a single account or multiple account
- Instructed on behalf of the same individual or entity (Third-Party), whether conducted by the same or different individuals, or received by the same or different account holder(s).

LCTs may occur on any account and may be made by members, their Agents, or Third Parties.

All LCTs trigger a requirement for a LCTR to FINTRAC. A report must be filed on the appropriate party involved in triggering the LCT. LCTs will be identified and reported on by related party types:

- Transacting Person (Conductor)
- Account Holder (Beneficiary)
- Third-Party (On Behalf of)

The Credit Union will identify, keep record of, and report as applicable each related party type for a large cash transaction.

There are no exceptions to submitting LCT information. Completing a LCTR does not imply Suspicious Activity; if a transaction appears unusual for the member, a requirement to file an Unusual Activity Reporting (UAR) may also be triggered refer to the [Unusual Activity Reporting Guidelines](#) and [Unusual Activity Reporting Procedures](#).

4.1 Large Cash Transaction Scenarios

The following general scenarios are considered LCTs and will trigger a requirement to file a LCTR.

SCENARIO	DETAILS
Single Transaction (CAD)	A single cash deposit of \$10,000 or more CAD equivalent made by a Transacting Person (Conductor), received by an Account Holder (Beneficiary) or conducted On Behalf Of (Third Party).
Multiple Transactions by Same Conductor (Transacting Person) within 24 hours	Two or more cash deposits totaling \$10,000 or more CAD equivalent that are made by the same individual and processed within 24 hours of each other (same business day, from 12:00am to 11:59pm).
Multiple Transactions for Same Account Holder (Beneficiary) within 24 hours	Two or more cash deposits totaling \$10,000 or more CAD equivalent that are made to account(s) held by the same account holder (Tax Reported Owner or Joint Owner) and processed within 24 hours of each other (same business day, from 12:00am to 11:59pm).
Multiple Transactions made at the instruction of the same Third-Party (On Behalf of) within 24 hours	Two or more cash deposits totaling \$10,000 or more CAD equivalent that are made on behalf of the same Third-Party, whether deposited by the same Transacting Person (Conductor) or deposited to the same Account Holder (Beneficiary) within 24 hours of each other (same business day, from 12:00am to 11:59pm).
Foreign Currency Transaction	Any foreign currency cash transaction which fits the above scenarios and totals \$10,000 or more CAD equivalent. Including US cash transactions and other foreign currency transactions conducted in FX Notes Plus, refer to FX Note Plus Guidelines and FX Notes Plus Procedures.

In the event a large cash transaction results in a duplicate LCTR for the exact same transaction(s) due to the different related party types, the Credit Union will file as follows:

SCENARIO	FILING
Same Transacting Person (Conductor) and Account Holder (Beneficiary)	LCTR will be filed on the Account Holder (Beneficiary)
Same Account Holder (Beneficiary) and Third-Party (On Behalf Of)	LCTR will be filed on the Account Holder (Beneficiary)

SCENARIO	FILING
Same Transacting Person (Conductor) and Third-Party (On Behalf Of)	LCTR will be filed on the Transacting Person (Conductor)

5 Transaction Related Parties

A LCT will be identified and reported on by related party type:

- Transacting Person (Conductor),
- Account Holder (Beneficiary),
- Third-Party (On Behalf of

Transactions can have multiple related party relationships identified:

- A transaction can have the same Transacting Person (Conductor) and Account Holder (Beneficiary)
- A transaction can have the same Third-Party (On Behalf of) and Account Holder (Beneficiary)
- A transaction can have different Transacting Person (Conductor), Account Holder (Beneficiary), or Third-Party (On Behalf of)

5.1 Transacting Person (Conductor)

The Credit Union only recognizes individuals as conductors; entities are not recognized as conductors. All transactions must have a record of the Transacting Person (Conductor) recorded, in either:

- The transacting person field in the Banking System in accordance with [DNA Deposit-Withdrawal Transaction Guidelines](#).
- The Non-Member Transaction Details section of the eReceipt application

Refer to the [Required Record Keeping](#) section for the specific information collection requirements.

5.1.1 Transacting Person (Conductor) Specific Scenarios

For LCTs the Transacting Person (Conductor) is dependent on the transaction method:

TRANSACTION METHOD	TRANSACTIONING PERSON (CONDUCTOR)
At Branch	The person in branch requesting the transaction

TRANSACTION METHOD	TRANSACTIONING PERSON (CONDUCTOR)
Night Depository	Tax Reported Owner
ATM	The owner of the Member Card used
Armoured Car Delivery	Employee of the armoured car company (obtain and record their personal information)
Mail or Courier	Tax Reported Owner

5.1.2 Third-Party Determination

Credit Union employees must take reasonable measures by asking the Transacting Person (Conductor) whether they are acting on behalf of a Third-Party.

A Third-Party is an individual or entity giving the instruction to conduct a transaction on their behalf.

An employee depositing into their employer’s business account is considered a Third-Party transaction, as the employer is giving instruction to the employee to conduct the deposit.

If a Conductor refuses to confirm whether they are acting on behalf of a Third-Party, employees are required to submit an Unusual Activity Report (UAR), refer to the [Unusual Activity Reporting Guidelines](#) and [Unusual Activity Reporting Procedures](#). The UAR must be completed without informing the Transacting Person (Conductor) and submitted to the AML Compliance Department.

5.2 Account Holder (Beneficiary)

The “Beneficiary” is the individual or entity to whose benefit the funds are being received (Account Holder (Beneficiary)). These are:

- Tax Reported Owner
- Joint Owner(s)

5.3 Third-Party (On Behalf of)

The person or entity upon whose behalf or instruction the transaction is being made:

- Employees depositing for employers
- Third-Party situations

6 Reporting Method

Branch employees report LCTs to the AML Compliance Department through two methods:

METHOD	DETAILS
Transaction Exception #127 in the Banking System	Certain simple LCTs are automatically identified by the Banking System and prompt the employee to include Transacting Person and transaction information related to the LCT, effectively allowing the employee to send the LCT information to AML Compliance through the Banking System.
Email to the AML Compliance Department	Many complex scenarios which constitute a LCT are not automatically identified by the Banking System. These LCTs must be identified by the employee and reported directly to the AML Compliance Department .

6.1 Transaction Exception #127

If the Transaction Exception #127 is triggered the employee must report specific information outlined in the [Required Record Keeping](#) section within the Transaction Exception #127 pop-up.

The following LCTs trigger Transaction Exception #127:

- LCTs completed within the same day to the same accounts owned by the same individual and/or entity.
- LCTs completed within the same day to different accounts with the same ownership or owner.
- LCTs which are deposited through the night deposit
 - With the exception of branches who utilize third-party services for night deposit processing.

6.1.1 LCTs Not Triggering Transaction Exception #127

If the transaction or combination of transactions constitutes a LCT, but does not trigger Transaction Exception #127 the employee must submit a LCTR notification by email directly to the [AML Compliance Department](#).

- The email must contain the account number and deposit amount of each individual transaction comprising the LCT and all the information specified in the [Required Record Keeping](#) section.

The following LCTs do not trigger Transaction Exception #127:

- LCTs where the net transaction was less than \$10,000 CAD due to cash withdrawals within the 24-hour period.
- LCTs which are or any part is effective-dated for any date other than the current system date

- Back-dated cash deposits may only be completed to correct a posting error and must be approved by Branch Management

- LCTs which are or any part is made in USD currency and deposited to a USD account.
- LCTs which are or any part is made in Foreign Currency and deposited to an account.
- LCTs which any part is made to accounts with different ownership.
- LCTs which are or any part is deposited through an ATM.

7 Required Record Keeping

There are KYM and specific information requirements for all LCTRs. The following sections provide direction on the information which must be captured or updated with a LCT.

7.1 Triggering Event – KYM Update

Upon the receipt of a LCT, the relationship profile of the Tax Reported Owner and Transacting Person, if applicable, must be current and up to date. Refer to the [Triggering Events Guidelines](#) for guidance on completing a KYM review capturing regulatory required fields in the banking system.

7.2 Transaction #127 Override Note

For cash deposit transactions that trigger the Transaction Exception #127 override note, the following must be recorded within the note. Refer to the [Override Note Template](#) for the format requirements within the note.

- Source of Funds
- Purpose of Transaction
- Third-Party: Y/N
 - If yes, complete the *Third-Party Details* section of the eReceipt application
- Employee: Y/N
 - If no, complete the *Relationship to Account Holder* section of the eReceipt application

7.2.1.1 Override Note Template

- Source of Funds: | |
- Purpose of Transaction: | |
- Third-Party: |Y/N|
- Employee: |Y/N|

Note: For reporting, the “|” breaks within the text are required in the override note.

7.3 eReceipt Record Keeping

For cash deposit transactions that trigger the Transaction Exception #127, the following fields must be complete on the eReceipt. Refer to the [eReceipt Application Job-Aid](#) for additional information on eReceipt requirements.

ERECEIPT FIELD	DETAILS
Non-Member Transaction Details	Complete the following information for a non-member Transacting Person (Conductor): • First Name • Last Name • Legal Address • ID Type • ID Number • ID Place of Issue • ID Expiry Date • Date of Birth • Phone Number • Occupation and Employer • Relationship to Account Holder If the Transacting Person (Conductor) is a member, they must be selected as the Transacting Person in Transaction Express when posting the transaction, and all information must be recorded and up to date in their Person Record within the Banking System. In addition, the following field must be completed in this section on the eReceipt: • Relationship to Account Holder
Additional Transaction Details	• Source of Funds • Purpose of Transaction • Third-Party: Y/N ○ If Yes, complete a 3rd party transaction form and the Third Party Details in the eReceipt Note: If on behalf of employer, no third-party statement form is required to be completed.
Third-Party Details	• Full Legal Name • Legal Address

ERECEIPT FIELD	DETAILS
	• Phone Number • Date of Birth • Relationship to Transacting Person

7.3.1 Purpose of Transaction

Employees must take reasonable measures to determine the purpose of the transaction.

Reasonable measures include	• Asking the Transacting Person (Conductor) • Reviewing the type of transaction being conducted and/or the intended use of account.
Purpose can be defined as	• What type of transaction is being conducted with the cash? ○ i.e. Deposit to an account • Why is the transaction being conducted? ○ Detailed in the Intended Use of the account • What will the cash be used for? Are we conducting a secondary transaction with the money? ○ For example: a wire transfer, bill payment or term deposit investment

7.3.2 Source of Funds

Employees must take reasonable measures to determine the source of funds.

Reasonable measures include	Asking the member how the funds were initially acquired. • i.e. sale of truck, business revenue/income, etc.
If a member refuses to provide information	Complete Source of Funds field with “Unknown/Disclosure Refused”.
If you suspect the Transacting Person (Conductor) is being evasive, untruthful, or the declared source seems unusual given the type of business	Complete an Unusual Activity Report in accordance with the applicable Unusual Activity Reporting Guidelines and Unusual Activity Reporting Procedures and submit it to the AML Compliance Department.

7.3.3 Relationship

A relationship to the Account Holder (beneficiary) must be obtained if the Transacting Person is not the Beneficiary of the account the cash is being deposited to.

Note: For personal deposits where the Transacting Person is depositing to their own personal account a relationship does not need to be obtained as it will be implied by the Credit Union that the relationship is “self”.

A relationship can include	• Employee (see Employee Determination) • Employer • Relative • Friend • Power of Attorney • Accountant • Bookkeeper • Customer/Client
-----------------------------------	---

7.3.3.1 Employee Determination

The branch employee must determine whether the Transacting Person is an employee for deposits to a business account by verbally confirming whether they are an employee. Branch employees must not rely on signing authority on the account to determine whether they are an owner or employee of a business account.

7.4 Large Cash Reporting

The following information must be captured in the Banking System and/or eReceipt for all transaction related parties for large cash transactions by branch employee:

INFORMATION REQUIRED	APPLICABILITY	REQUIRED RECORDKEEPING
Transacting Person (Conductor)	All large cash deposits	• Full Legal Name • Legal Address • Phone Number • Date of Birth • Primary ID information • Transacting Person’s relationship to Account Holder (Beneficiary) (e.g., employee, mother, brother, etc.) • Specific Occupation and Employer

INFORMATION REQUIRED	APPLICABILITY	REQUIRED RECORDKEEPING
Account Holder(s) (Beneficiary)	All large cash deposits	• Full Legal Name • Legal Address • Phone Number • Date of Birth (if person) • Primary ID information (if person) • Specific Occupation and Employer (if person) • Nature of Principal Business (if entity) ○ Confirm what does the business specifically or primarily do • Registration or Incorporation Number (if entity) including place of issuance
Third-Party (On Behalf of)	All large cash deposits	• Full Legal Name • Legal Address • Phone Number • Date of Birth • Relationship to Account Holder (Beneficiary) • Complete a Third-Party Statement (form 1914) ○ A transaction being conducted by an employee on behalf of their employer does not require a third-party statement form
Employee Determination	All large cash deposits to business accounts	• Confirm if Transacting Person (Conductor) is an employee of the business ○ Complete as 'Yes' or 'No' in the Transaction Exception #127 note Important: Branch employee must verbally confirm with the Transacting Person (Conductor) if they are an employee: ○ Do not rely on signing authority in the Banking System to make this determination ○ E.g., a company's bookkeeper may sign on the account, however they are an

INFORMATION REQUIRED	APPLICABILITY	REQUIRED RECORDKEEPING
		employee and not an owner; therefore the field would be completed as “Yes”.
Declared Source of Funds	All large cash deposits	Obtain with best efforts where the cash was acquired from.
Purpose of Transaction	All large cash deposits	- Obtain with best efforts what the cash will be used for. - Deposit to an account - Intended Use of the account - Confirm whether an additional transaction is being immediately requested and performed
