1 Purpose

This document is intended to provide operational level guidance on Non-Member transactions.

2 Guidance

The Credit Union will only conduct transactions with Non-Members under specific circumstances outlined in this document.

As a member-based organization we always look at the impact those changes will have on our membership as a whole. We are here to do business with our members and want to concentrate our resources and efforts on them.

- It is recommended that the Non-Member open a membership with the Credit Union, refer to [Personal Membership Guidelines](#) for requirements to open a membership.
- For instructions on how to post a Non-Member transaction in the Banking System, refer to [Non-Member Transactions Procedures](#).

3 Non-Member Definitions

Term	Definition
Non-Member	A Non-Member is an individual who does not have a membership with the Credit Union and typically has no established business relationship.
Non-Member Transaction	A Non-Member transaction includes: • An individual who is a true Non-Member (<i>definition in row above</i>) • An individual who is a Member of the Credit Union, but does not have an Authorized Signatory role on the account they would like to transact on (<i>e.g., Depositing to another Credit Union member's account, an employee of one of our business members who would like to conduct a cash exchange etc.</i>).
Non-Member Business Relationship	A business relationship is established with a Non-Member if the Credit Union obtained or verified their identification to conduct two separate transactions within a five-year period. This includes both attempted and completed transactions if any personal identifiable information has been collected.

Term	Definition
	A Non-Member business relationship requires: • Ongoing monitoring for a period of five years through the designated Non-Member transaction accounts. • Adherence to any Third-Party regulations such as CRA Requirement to Pay or Family Maintenance Enforcement, see Negotiable Instruments section below for further information.

4 Compliance Requirements

4.1 Non-Member Requirements and Recordkeeping

Do not create a Non-Member profile in the Banking System.

- **Important:** Existing Non-Member profiles that exist in the Banking System from legacy Credit Unions are to not be used, except for Lawyers Trust Account Cheques as outlined in [Replace Lawyers Trust Cheque](#) section below.

Requirement	Responsibility Of	Details
Transacting Person (Conductor) Information (Personal Identifiable Information)	Branch Staff	Personal Identifiable Information must be captured for all Non-Member transactions. Refer to the Non-Member Transactions Procedures for a complete list of information that needs to be collected from the individual. This information must be protected and retained in the same manner as for members. Record Non-Member information in the: • E-Receipt user defined fields (<i>UDF</i>) for each posting. (<i>e.g., paying Collabria credit card, will be processed in two transactions -cash deposit and paying the bill</i>). • Transaction Description as outlined in the relevant Non-Member Transaction Account section. • On the back of the cheque for government issued cheques as outlined in the Identity Verification section. • Note: It is not mandatory for the address on the cheque to match the current physical legal address on the identification: ○ If the address does not match, take extra caution to ensure there is no uncertainty in negotiating the cheque. ○ Record the Non-Member's current physical legal address in the user defined fields of the e-receipt.
Attempted Transactions	Branch Staff	When personal identifiable information is collected from a Non-Member, but the transaction is not completed, record the information collected in either: • An UAR as outlined in Unusual Activity Reporting Procedures, or • An email to AML Compliance with all information collected along with a description of the attempted transaction.
AML – Unusual Compliance Requirements	Branch Staff	The Non-Member must meet the Anti-Money Laundering (<i>AML</i>) requirements before any transaction is considered.

Requirement	Responsibility Of	Details
		For any completed or attempted transaction that is deemed unusual, including if there are reasonable grounds to suspect a Negotiable Instrument presented is invalid or fraudulent, an <i>Unusual Activity Report (UAR)</i> form is to be completed by the employee. Refer to Unusual Activity Reporting Guidelines for further information.
Transaction Exceptions	Branch Management	Record Branch Management approval for transaction exceptions by creating a CRM task on the Non-Member Account profile: - Assign it to approving Manager with a note including: - Name of the individual - Considerations that support a transaction exception, see the Transaction Limit Exceptions section for further information. - Approving Manager is required to note their reasoning behind the approval (<i>e.g., employee of our business member attends the branch multiple times a week on behalf of the business</i>).

4.2 Identity Verification

When conducting a transaction with a Non-Member they must be verified in accordance with the Government-Issued Photo Identification Method section of the [Identity Verification Guidelines](#).

- If cashing a Province of BC Cheque, the Non-Member must provide 2 pieces of ID:
 - At least one must be Primary ID, and the second piece can either be Primary ID or Secondary ID as outlined in the [Identity Verification Guidelines](#).

4.2.1 Record Keeping

Non-Member ID details must be recorded on the e-receipt UDF as outlined in the [Non-Member Requirements and Recordkeeping](#) section above.

- For federal and provincial cheques, ID details must also be recorded on the back of the cheque. This ensures it meets the Indemnity Agreement requirements as proof the identification was viewed at the time the cheque was cashed.

Note: Privacy legislation does not permit the Credit Union to retain photocopies of Non-Member identification.

4.2.2 Federal and Provincial Cheques ID Exceptions

If the Non-Member does not meet our Credit Union's ID verification requirements outlined above, see below options:

Ministry of Social Development and Poverty Reduction	For provincial cheques, the Non-Member can contact the Ministry of Social Development and Poverty Reduction who may issue a special photo Identification Card that can be used to identify the Non-Member and verify signature. • See Ministry of Social Development Identification Card section for further information.
Compliance	If the situation warrants an exception, Branch Management can propose a recommendation by email to the AML Compliance Team.

If either of the above options are unsuccessful, refer them to their own Financial Institution to cash the cheque.

4.2.3 Ministry of Social Development Identification Card

Identification cards (*ID Cards*) are issued by the Ministry of Social Development on a temporary basis while the individual applies to obtain acceptable ID.

Accepting an ID Card	We cannot accept an ID Card from the presenter of the cheque. ID Cards are sent directly to the branch from the Ministry of Social Development and Poverty Reduction.
Filing the ID Card	When received in branch, import the Ministry Identification Card to the Non-Member Transaction Account in ECM as outlined in the Nautilus User Guide. • Ensure you input the Non-Member's first and last name during the upload to easily identify the ID Card at a later date. Once saved and confirmed to be in the ECM, the hard copy is to be placed in the branch's secure shredding bin.

Expiry of the ID Card	An ID Card is valid for 2 years after it was issued.
Identity Verification	If we have an ID Card from the Ministry on file verify: • The ID card is still acceptable; the issue date must be less than 6 months old (<i>see note below</i>) • The Non-Member's signature and identity. Note: Employees must review the issue date in the bottom right-hand corner of the ID card prior to completing the transaction. • If the ID card was issued over 2 years ago the ID Card is no longer valid, the Non-Member must: ○ Provide acceptable ID ○ Contact the Ministry to send us another valid ID card.

5 Non-Member Transactions

5.1 Non-Member Transaction Account

All Non-Member transactions are required to be processed through the Non-Member account to create a record, see [Non-Member Recordkeeping Requirements](#) section for further information:

- Post each item individually for audit purposes and include the full legal name of the Non-Member and type of transaction in **Transaction Description**. If the name is too long, include the first letter of the first name and full last name, see relevant [Non-Member Transaction Types](#) section for further information.
- To comply with the [daily limit](#), review the Non-Member accounts prior to posting the transaction in the Banking System to ensure the Non-Member daily limit has not been exceeded if they have already processed a transaction that day or at another location.

Member Number	Account Number	Account Name
20094705	100009021601	Non-Member Transactions

5.2 Non-Member Transaction Daily Limit

The maximum daily transaction limit for a Non-Member cannot exceed \$2,999.99 CAD equivalent.

Includes any combination of negotiable items:

- *(e.g., a cash a cheque drawn on our member and/or a Credit Union branded credit card payment; combined value cannot exceed the daily limit)*

Does not include transactions whereby a Non-Member is depositing funds on behalf of one of our members:

- *(e.g., a Non-Member is depositing into a member account).*

Established limits for permitted Non-Member transactions includes the threshold of risk we are willing to take as an organization and our interpretation of regulatory requirements.

- Employees are to use their own discretion if uncomfortable with transaction even if the amount is within our established limits *(e.g., situation does not make sense, or it does not align with the information outlined in these guidelines)* see [Non-Member Recordkeeping Requirements](#) section or refer to Branch Management for guidance.
 - If the employee feels the transaction warrants an exception to the limits, see [Transaction Limit Exceptions](#) section.

5.3 Non-Member Transactions - Not Permitted

There are no exceptions to the following:

Non-Member Transactions - Not Permitted

- Any transaction deemed suspicious, see [Compliance Requirements](#) section for further information
- Bill Payments, excluding Credit Union Credit Cards
- Any transaction being competed by or for an Entity *(e.g., Payee for a negotiable instrument cannot be an Entity, Credit Card Payment in the name of a business, etc.)*

- Wire Transfers (*Incoming/Outgoing*)
- Issuance of a CAD or USD Official Cheque purchased via cash
- Foreign currency cash exchanges other than USD
- Credit Card cash advances (*processed in branch*)
- Negotiation of Traveler's Cheques
- Negotiation of Money Orders
- Negotiation of Canada Savings Bonds
- Negotiation of Non-Member Third Party Cheques (*e.g., co-signed endorsements*). Refer to [Negotiable Instruments Guidelines](#).

5.4 Non-Member Transactions – Permitted

The following transaction types are permitted for a Non-Member.

See [Non-Member Transaction Types](#) section below for further guidance on requirements for each of the below types of transactions.

Transaction Type	Limit
Negotiation of Government Cheques	\$2,999.99 CAD equivalent or less
Negotiation of USD or CAD Cheques/Official Cheques drawn on our Institution for cash	\$2,999.99 CAD equivalent or less
Replace a USD or CAD cheque drawn on our Institution by replacing with an Official Cheque (e.g., certify a cheque)	\$2,999.99 CAD equivalent or less
Replace Lawyers Trust Cheque (Letter of Direction required)	No Non-Member limit
Credit Union branded credit card payments paid using cash	\$2,999.99 CAD equivalent or less
Cash Exchange	CAD: \$500.00 CAD equivalent or less USD: \$200.00 CAD equivalent or less
Cash Exchange for one of our business member's employees	\$2,999.99 CAD equivalent or less
Deposits to Credit Union personal/business member accounts	No Non-Member limit

5.4.1 Transaction Limit Exceptions

If an employee believes an item presented by the Non-Member warrants an exception to the transaction limits:

Request Exception to Guidelines	Considerations for review: - What is the reason or circumstance behind this request? - Is the Non-Member a member at another credit union?
--	---

	Is there a reputation risk for the Credit Union declining this service?
Approving Exception to Guidelines	Due to regulatory requirements, a full review is to be completed by Branch Management. Consult with the AML Compliance team for additional support. Transactions for Non-Members require the same FINTRAC reporting as for members: For large cash transactions, refer to Large Cash Transaction Reporting (LCTR) Guidelines. Approval is to be recorded in the Non-Member Transactions account profile in CRM as indicated in the Non-Member Record Keeping Requirements section.

6 Non-Member Transaction Types

6.1 Negotiable Instruments

The requirements in the below table apply to all Non-Member Negotiable Instruments:

- There are additional requirements dependent on the type of cheque in the sub-sections below.

Requirement	Details
Limit	\$2,999.99 CAD equivalent or less If the cheque value exceeds this limit: - If the item warrants an exception, see Transaction Limit Exceptions section, or - The Non-Member will have to negotiate the cheque at their own FI or a cheque cashing outlet.
Personal Identifiable Information	Personal Identifiable Information must be captured for all Non-Member transactions. Refer to the Non-Member Transactions Procedures for a complete list of information that needs to be collected from the individual. See Identity Verification section for identification requirements.

Requirement	Details
Endorsement	The Non-Member payee must sign the back of the Negotiable Instrument in the presence of the employee when negotiating the item. The employee must verify the Non-Member's signature to the identification presented.
Confirm the validity of the cheque	A Negotiable Instrument must be authenticated to confirm it is valid before it can be negotiated. Refer to Negotiable Instruments Guidelines for more information. - Employees must confirm the Non-Member is not listed on the Third-Party Demands Report to comply with Third Party regulations. Additional requirements dependent on the cheque type are listed in the relevant sub-section below. Federal Government Cheques Provincial Government Cheques Cheques Drawn on our Institution Replace Lawyers Trust Cheque
Posting the transaction	The transaction is to be posted through the Non-Member Transaction Account to create a record. - Transaction Description must include the Non-Members First and Last name and type of transaction (<i>e.g., Jane Smith - Cheque Cashing</i>) - Additional posting instructions are outlined in Cheques Drawn on our Institution section.
Collect service fee	A fee applies to: - Cash a negotiable instrument for a Non-Member Note: Government issued cheques are exempt - Replace a Credit Union cheque with an Official Cheque See the Service Fee section.
Non-Member Third-Party Cheques	These are not to be negotiated at all:

Requirement	Details
	- Non-Member cannot negotiate the item through our member's account, even in the presence of our member. If the member is present, the options for the Non-Member are: - Follow Non-Member requirements outlined in this document - Designate the member's account as a Third-Party Account in the Banking System as outlined in the Negotiable Instruments Guidelines.

6.1.1 Government Cheques

6.1.1.1 Federal Government Cheques

A Federal Government cheque can be negotiated for cash by a Non-Member if the following requirements are met, in addition to the requirements for all [Negotiable Instruments](#) outlined in the above section.

Identification Requirements	See Identity Verification section. In addition to the e-receipt UDF, ID details must also be recorded on the back of the cheque. This ensures it meets the Indemnity Agreement requirements as proof the identification was viewed at the time the cheque was cashed.
Loss Prevention	The indemnified payment cheques must contain Institution Number 117 in the MICR encoding band. All Non-Member Federal Government cheques must be verified by calling the Cheque Redemption Control Directorate (<i>CRCD</i>) at 1-866-552-8034 or Supervisor, Cheque Enquiry Unit 1-418-566-7211: - Confirmation is to be recorded on the E-Receipt UDF. Note: These numbers are for internal use only and are not to be provided to the Non-Member Refer to Negotiable Instruments Guidelines for further information.

Pre-dated Government of Canada Cheques	Government of Canada Cheques cannot be accepted before the date on the warrant (<i>e.g., Cheque</i>). Note: Items with a month-only date can be introduced into the clearing system on the first business day of the month.
Stale-dated Government of Canada Cheques	Federal Government cheques are not subject to the six-month stale-date rule.
Cheque Cashing Requirements	Credit Unions are not required to cash federal government cheques if: • The person offering the cheque does not, at the same time, endorse the cheque or present adequate identification. • The person offering the cheque is grossly belligerent or obnoxious. • If the Credit Union reasonably believes that the cheque is fraudulent, or the identification presented is not genuine, and/or • The item is endorsed by a Third-Party.

6.1.1.2 Provincial Government Cheques

A Provincial Government cheque (*e.g., Regular monthly BC Employment and Assistance Cheques, Imprest Cheques issued at Ministry of Social Development Offices*) can be negotiated for cash by a Non-Member if the following requirements are met in addition to the requirements for all [Negotiable Instruments](#) outlined in the above section.

Identification Requirements	See Identity Verification section. • In addition to the e-receipt UDF, ID details must also be recorded on the back of the cheque. This ensures it meets the Indemnity Agreement requirements as proof the identification was viewed at the time the cheque was cashed. • If cashing a Province of BC Cheque, the Non-Member must provide 2 pieces of ID: ○ At least one must be Primary ID and the second piece can either be Primary ID or Secondary ID as outlined in the Identity Verification Guidelines.
------------------------------------	--

Indemnity Agreement	The <i>BC Benefits Cheque Indemnity Agreement</i> backs cheques issued on the Province of BC, and drawn on Central 1 Credit Union: • Included: ○ Does provide protection for stop payments, fraudulent issue, or cheque alteration. • Not Included: ○ Does not provide protection for Province of British Columbia - General Account (Provincial Treasury) cheques - therefore these cannot be negotiated for Non-Members. ○ Does not provide protection double presentment, or ○ Does not preclude the Credit Union from FINTRAC reporting requirements.
Cheque Validation Requirements	The <i>BC Benefits Cheques Indemnity Agreement</i> does not require phone verification of all cheques. If there is a specific reason you are concerned about validity of a provincial government cheque: • BC Employment and Assistance cheques can be validated on the BC Government's online portal. • For all other provincial cheques, refer to Negotiable Instruments Guidelines for more information on validating government cheques and contact information.
Cheque Cashing Requirements	Credit Unions are not required to cash BC Employment and Assistance cheques if: • The person offering the cheque does not, at the same time, endorse the cheque or present adequate identification • The person offering the cheque is grossly belligerent or obnoxious • If the Credit Union reasonably believes that the cheque is fraudulent, or the identification presented is not genuine, and/or • The item is endorsed by a Third-Party.

6.1.2 Cheques Drawn on our Institution

In addition to the requirements for all [Negotiable Instruments](#) listed above, the following must be completed when a Non-Member presents:

- A USD or CAD cheque drawn on our institution for cash
- A USD or CAD Official Cheque drawn on our institution for cash
- Replace a USD or CAD cheque drawn on our institution with an Official Cheque

Note: If replacing a Lawyer Trust Account Cheque see additional requirements in [Replace Lawyers Trust Cheque](#) section.

Steps	Details
Verify Sufficient Funds	The cheque must be drawn on an established Credit Union member account and employees must confirm: • The account the cheque was written from has sufficient balance to clear, • Determine if the cheque already cleared, and • That no stops or holds have been placed on it. See Non-Member Transactions Procedures for how to view this information in the Banking System. If the account does not have sufficient balance, advise the Non-Member you are unable to negotiate the cheque and to refer them to the member who wrote it.
Confirm Validity of the Cheque	A cheque must be authenticated to confirm it is valid before it can be negotiated. Refer to Negotiable Instruments Guidelines for more information. • For cheques, verify the cheque signature to our member's Signature Image in the Banking System or other documentation on file. • For Official Cheques, confirm it is a valid amount (<i>e.g., no alterations</i>) • Contact the account owner to confirm the validity of the cheque. ○ Exception is Lawyer Trust Account Cheques, since a Letter of Direction is provided.
Posting the Transaction	To mitigate any clearing implications, the amount of the cheque is to be withdrawn from our member's account and deposited to the Non-Member Transaction account. Since the cheque will not process through the clearing system, it will not show as a cheque transaction with an image for the member's records (<i>online/statements</i>). As such, employees are to include the Cheque Number and Payee Name in the

Steps	Details
	transaction description to assist the member in identifying the withdrawal at a later date (<i>e.g., Cheque#1234 cashed for Jane Smith</i>). Employees are to retain the original cheque: • Write across the cheque “PAID” and retain in daily work. Note: If the member requires the cheque to clear for their record keeping purposes, do not withdraw the funds from our member’s account. Instead, deposit into the Non-Member Transaction Account to clear. Ensure you indicate on the Transaction Description that clearing instructions were used for audit purposes. For this scenario, consult your Branch Management for support and ensure all risk mitigations are taken such as placing a hold on the account to ensure the funds are still available at time of clearing. Refer to Non-Member Transactions Procedures for a complete list of posting instructions.

6.1.3 Replace Lawyers Trust Cheque

If an employee or runner presents a Lawyers Trust Cheque and needs to have it replaced by an Official Cheque the following must be met:

- A **"Letter of Direction"** from the law office providing the instructions for the Official Cheque is required.
 - Letter must be signed by the required number of authorized signers on the account
 - Letter is to be retained in your daily work, along with a photocopy of the Lawyers Trust Cheque (*if cheque does not go through clearing*)
- **Personal Identifiable Information:**
 - If the employee/runner is a **Member**, e-Receipt UDF are not required to be completed for the employee/runner, instead select them as a **Transacting Person** field in Transaction Express.
 - If the employee/runner is a **Non-Member**, all Personal Identifiable Information is required to be collected and recorded on the e-receipt UDFs.
 - For employees/runners who frequently exchange Lawyers Trust Account cheques see [Lawyer Trust Accounts Person Record Creation](#) section below.

- Post the Transaction following the guidance in the [Cheques Drawn on our Institution section](#) above.
 - **Note:** It is common law offices may want/require their original cheque image to be included on their statement. Ensure the clearing system instructions are followed in this scenario, unless directed otherwise.

6.1.3.1 Lawyer Trust Accounts Person Record Creation

Non-members who frequently exchange Lawyers Trust Account cheques can have a Person Record created in Banking System with Branch Management approval.

Exception	This exception is only for Lawyers Trust Accounts (<i>for all other Non-Member transactions, employees are not permitted to create a Person Record on a Non-Member profile</i>): • This eliminates the need to manually capture Non-Member details in the e-receipt for every transaction.
Requirements	• Non-Member must sign the <i>Personal Information Consent</i> form prior to collecting Personal Identifiable Information. ○ The completed form is to be uploaded to the Non-Member Account's ECM. • Collect and record required Non-Member Personal Identifiable Information on a Non-Member Person Record: ○ Refer to Non-Member Transactions Procedures for instructions on how to create a Non-Member person record and collect the required information. • Record Branch Management approval by creating a CRM task on the Non-Member Account profile: ○ Assign it to approving Manager with a note including: ▪ Relationship to account holder (<i>Required, but unavailable as a field in the Banking System</i>) ▪ Details that support creating a person record. ○ Approving Manager is required to note their reasoning behind the approval (<i>e.g., employee of our business member attends the branch multiple times a week on behalf of the business</i>). • Once the person record is setup in the Banking System, e-Receipt UDF are no longer required for the employee/runner if they are selected in the Transacting Person field in Transaction Express. ○ Use the Quick Search slide out to locate the employee/runner, see Figure below

- **Note:** The [Non-Member Transactions Procedures](#) do not speak to this exception. Ensure you record the **Transacting Person** for these scenarios.

Figure - Non-Member - Transacting Person

The screenshot displays the 'Multi-Multi Currency Transaction Express' interface. The top navigation bar includes links like 'Home', 'Product Maintenance', 'Tools Maintenance', 'Agreement Transaction Parameters', 'Funds Information', 'Setup', and 'Tools Maintenance'. The main form is divided into several sections:

- Screen Currency:** CAD (dropdown), Account Status: Active, Hold Account Number: [blank], Transacting Person: Jane Smith (dropdown).
- Effective Date:** 11-Sep-2025 (calendar icon), Product: Chequing - Internal Chequing, Tax Owner: Non-Member Transactions.
- Transaction Detail:** Account Number: 10009021601 - Chequing / Ch, CAD, Current Balance: 0.00, Payment Amount: 0.00, Transaction Type: [dropdown], Available Balance: 0.00, Credit Available: 0.00, Fund Type: [dropdown], Transaction Description: [dropdown], Routing and Transit Number: [blank], Amount: CAD [blank], Check Number: [blank]. Buttons: Update, Clear.
- Transaction Listing:** A table with columns: Account Number, Transaction / Fund Type, Amount, Exchange Rate, Converted Amount, Foreign Amount, Check Number, Details. Buttons: Remove, Edit.
- Search Criteria:** Member Number: [blank], Account Number: [blank], Last Name: SM%, First Name: JAM%, Tax Identification: [blank]. Radio buttons: Person (selected), Organization, Tax ID. Buttons: Query, Clear.
- Transacting Person:** A table with columns: Name, Tax Identification, DOB (Age), Personal ID Code, Member Number, Primary Address. Data rows for Jane Smith, Janet E, Janet L, and Janet L.
- Footer:** Cancel, Cash Back Amount: 0.00 CAD, LOY Coin: 0.00, Close, Clear, Process, Advanced, Select.

6.2 Credit Union Branded Credit Card Payments

Permitted: Our Credit Union branded credit cards (*including legacy Credit Union cards*) can be paid by a Non-Member with cash, including both Mastercard and Visa (*e.g., Collabria Mastercard and Visa*).

Not Permitted: All other credit card payments are not accepted. (*e.g., TD Visa, BMO Mastercard, etc.*)

Limit	\$2,999.99 CAD equivalent or less. Multiple credit card payments by the same individual cannot exceed this daily amount.
Personal Identifiable Information	Personal Identifiable Information must be captured for all Non-Member transactions. Refer to the Non-Member Transactions Procedures for a complete list of information that needs to be collected from the member

	The name on the credit card needs to match the name on the individual's ID for the transaction to proceed. See Identity Verification section for identification requirements.
Posting the Transaction	The transaction is to be posted through the Non-Member Transaction Account to create a record. • Include the Non-Members First and Last name and type of Credit Card in the Transaction Description (<i>e.g., John Smith - Collabria MC</i>)
Service Fee	No fee for this service.

6.3 Cash Exchange

Branch awareness is required to ensure the same Non-Member is not exchanging cash on a regular basis.

Frequency	Cash exchanges should be infrequent transactions.
Focus	Our focus is serving our members instead of providing regular cash exchange services for Non-Members that do not hold their accounts with us. • For example, we do not want to become a cheap alternative for an individual from a local business to exchange cash (<i>e.g., blocks of coin requests</i>) just because we are located in a convenient location for them.
Best Practice	It is recommended: • To only complete a cash exchange for personal Non-Members (<i>e.g., Non-Member used the ATM and wants to exchange cash for a car wash, laundry, or fundraising float</i>). • That the Non-Member open a membership with the Credit Union, refer to Personal Membership Guidelines for requirements to open a membership.

6.3.1 CAD Cash Exchange

Note: This is not available at cashless branches, they cannot exchange cash.

Non-Members can exchange CAD cash at the branch if the following requirements are met:

Limit	\$500.00 CAD equivalent or less. If the cash exchange request exceeds this limit and the item warrants an exception, see Transaction Limits Exceptions section.
Personal Identifiable Information	Personal Identifiable Information must be captured for all Non-Member transactions. Refer to the Non-Member Transactions Procedures for a complete list of information that needs to be collected from the member See Identity Verification section for identification requirements.
Posting the Transaction	The transaction is processed through the Non-Member Transaction Account. • Include the Non-Members First and Last name and type of transaction in the Transaction Description (<i>e.g., Jane Smith - CAD to CAD exchange</i>)
Service Fee	No fee for this service.

6.3.2 USD Cash Exchange

Note: This is not available at cashless branches, they cannot exchange cash.

Non-Members can exchange USD cash at the branch if the following requirements are met.

Currency	USD only - all other Foreign Currency exchange is not permitted.
Limit	\$200.00 CAD equivalent or less. If the cash exchange request exceeds this limit and the item warrants an exception, see Transaction Limit Exceptions section.
Personal Identifiable Information	Personal Identifiable Information must be captured for all Non-Member transactions. Refer to the Non-Member Transactions Procedures for a complete list of information that needs to be collected from the member See Identity Verification section for identification requirements.

Posting the Transaction	The transaction is processed through the Non-Member Transaction Account. Include the Non-Members First and Last name, type of transaction and rate in Transaction Description (e.g., <i>Jane Smith - CAD to USD @ 1.3496</i>)
Service Fee	No fee for this service.

6.3.3 Cash Exchange for our Business Members

If a business member has an employee who is not an Authorized Signatory on the account, but would like to conduct a cash exchange on behalf of our business members the following requirements must be met:

Limit	\$2,999.99 CAD equivalent or less.
Personal Identifiable Information	Personal Identifiable Information must be captured for all Non-Member transactions. Refer to the Non-Member Transactions Procedures for a complete list of information that needs to be collected from the member See Identity Verification section for identification requirements. If the Non-Member refuses to provide all required information the transaction cannot be completed.
Posting the Transaction	Do not process through the business account. The transaction is processed through the Non-Member Transaction Account. Include the Non-Members First and Last name, type of transaction, and business member # in the Transaction Description (e.g., <i>Jane Smith - Cash Exchange Bus#20012345</i>) Note: Even if the employee is a Member, process through the Non-Member Transaction Account. It is not recommended to process the transaction through the business employees' personal account because this would trigger third party requirements and reporting as outlined in the Third-Party Determination Guidelines.
Service Fee	No fee for this service.

6.4 Deposits to a Member's Account

Non-Members or individuals who are not signers or owners of the account must meet the following requirements:

Limit	There are no Non-Member limits for deposits to Credit Union personal or business member accounts.
Personal Identifiable Information	Personal Identifiable Information must be captured for all Non-Member transactions. Refer to the Non-Member Transactions Procedures for a complete list of information that needs to be collected from the individual. See Identity Verification section for identification requirements.
Account Information Requirements	Note: With either scenario do not provide a receipt with information outside of what the depositor/conductor provided - never include an account balance. Non-Member needs to provide one of the following: • Full Name and Member Number ○ Deposit the into the primary chequing or savings account. ○ For personal accounts - deposit funds to an account not jointly held (<i>this may not always be possible</i>) ▪ If funds are deposited to a joint account, do not include the joint owner's name on the receipt • Full Name and Account Number ○ Transit number (<i>this might not always be possible</i>) ○ Obtaining a transit can be a mitigation if any privacy and/or fraud concern.
Transaction Requirements	Capture all Non-Member Personal Identifiable Information on the e-receipt in the UDF. • If the Non-Member declines to provide the information the transaction cannot be completed - redirect the Non-Member to the night deposit. • Follow the transaction description as outlined in the DNA Deposit-Withdrawal Transaction Guidelines. ○ If Non-Member requests to add an additional description this can be included. (<i>e.g., Cash - Birthday Gift from Grandma</i>)
Service Fee	There is no fee for this service

7 Service Fee

The following Non-Member transactions are charged a service fee:

- Cashing a Negotiable Instrument
 - Government issued cheques exempt from fee
 - At branch discretion can waive cheque cashing for a business member's employee.
- Replacing a cheque with an Official Cheque

Refer to the [Internal Service Charge Listing](#) for current fee amount. The fee can either be deducted from the cheque amount or paid by cash.

If a service fee applies, employees are to manually charge a Service Charge fee as outlined in the [Non-Member Transactions Procedures](#).
