1 Purpose

This procedure document will outline the requirements of the AML Compliance Team when reviewing and approving requests to ascertain or verify the identity of individuals using the Agency Method.

2 Guidance

The AML Compliance Team will utilize these AML Admin procedures in conjunction with the Credit Union's Identity Verification [Guidelines](#) & [Procedures](#).

3 Scope

The Agent Agreement Method requires approval from the AML Compliance Team, to allow on an exception basis, to verify Individuals who do not meet the requirements of the Government-Issued Photo Identification Method or the Credit File Method.

Staff wishing to use this method must confirm that the selected Agent is an eligible reporting entity and is willing to act as an Agent, ascertain ID, and facilitate the signing of the Agent or Mandatary Agreement.

3.1 Eligible Reporting Entities

The following are entities that are eligible to act as an Agent.

- Other Canadian Credit Unions
- Canadian Lawyers
- Notaries registered in British Columbia

4 Agency Agreement Procedures

Credit Union staff will send an email request to the AML Compliance Team to obtain approval to ascertain the ID of an individual utilizing the Agency Agreement Method and to facilitate the execution of the Agent or Mandatary Agreement.

The following steps will be taken by the AML Compliance Team to complete the process.

4.1 Request Received

Staff will email the AML Compliance Team to request approval for identification verification through the Agency Agreement Method and to initiate the Agent or Mandatary Agreement.

- The requesting staff member must confirm the Agent's willingness to provide the service prior to emailing the AML Compliance Team
- If the Agent charges a fee, the requesting staff must inform the individual that they will be responsible for any fees charged.

- The email to AML Compliance should include the following for **both** the Agent & the individual whose ID is being ascertained:

First & Last Name	Phone Number
Email Address	Physical Address

4.2 Reviewing the use of the Agent Method

The AML Compliance Team will review the request to determine whether the reason for utilizing the Agent Agreement Method is reasonable.

Reasonable uses of the Agent Agreement Method include:

- The individual will be a POA, Executor, Registered Product Beneficiary, or is becoming a new member with Beem and resides outside of Beem's direct service area and cannot attend a branch to ascertain ID
- The individual signs on a business who operated within the Credit Union's service area and cannot attend a branch to ascertain ID.

Unreasonable uses of the Agent Agreement Method include:

- The individual resides within the Credit Union's direct service area and can reasonably attend a branch to ascertain their ID using the government ID or credit file methods.
- The individual resides outside of the Credit Unions direct service area and would like to open a new membership
 - Further information would be required to determine whether an exception would be made:
 - Why are they wanting to open an account with Beem
 - Do they plan on moving to the direct service area soon
 - What is the benefit to the Credit Union to open the membership

If the use of the Agent Agreement Method is determined to be reasonable, the AML Compliance Team can proceed to the [next step](#).

If the use of the Agent Agreement Method is not reasonable, the AML Compliance Team will respond to the requestor that we cannot proceed with this method due to the reasons identified.

4.3 Verify Agent

The AML Compliance Team must conduct due diligence to verify the legitimacy of the Agent and ensure there is no adverse media or negative news associated with them.

- Confirm the Agent provided falls under one of the above noted [eligible reporting entities](#)
- Conduct an open-source search to:
 - ensure there is no negative media surrounding the Agent
 - verify contact information provided for the Agent

If the AML Compliance Team can successfully verify the legitimacy of the Agent proceed to the [next step](#).

If the AML Compliance Team cannot verify the legitimacy of the Agent they will respond to the requestor that we cannot proceed with use of the Agent provided due to the reasons identified.

4.4 Complete Agent or Mandatary Agreement

The AML Compliance Team will complete the Agent or Mandatory Agreement form, completing the applicable sections prior to sending it to the Agent.
