1 Purpose

This procedure document will outline the requirements of the AML Compliance Team when reviewing and approving requests to ascertain or verify the identity of individuals using the Dual Process Method.

2 Guidance

The AML Compliance Team will utilize these AML Admin procedures in conjunction with the Credit Union's Identity Verification [Guidelines](#) & [Procedures](#).

3 Scope

The Dual Process Method requires approval from the AML Compliance Team, only on an exception basis, to verify Individuals who do not meet the requirements of the Government-Issued Photo Identification Method or the Credit File Method.

Staff wishing to use this method to ascertain an individual's ID must obtain the required documentation and submit to AML Compliance for approval.

3.1 Document Requirements

Staff must obtain from the individual and provide the AML Compliance Team documents from two different reliable sources, that are valid and current that contain any two of the following:

- Full legal name and legal address
- Full legal name and date of birth on a single reliable source, or
- Full legal name and confirmation of ownership of any deposit account, prepaid payment product, credit card, or loan accounts with other financial entity.

Each document must contain a different set of matched information from the list above. For example, we cannot have 2 documents each confirming only the legal name and legal address.

4 Dual Process Approval Procedures

Credit Union staff will send an email request to the AML Compliance Team to obtain approval to ascertain the ID of an individual utilizing the Dual Process Method.

The following steps will be taken by the AML Compliance Team to complete the process.

4.1 Request Received

The AML Compliance Team will receive an email request for approval to ascertain an individual's ID using the Dual Process Method. The request should include the following:

- The reason for using the Dual Process Method instead of the Government ID or Credit File Methods

- The [required documentation](#) obtained from the individual to meet the Dual Process requirements

4.2 Reviewing the Use

The AML Compliance Team will review the request to determine whether the reason for utilizing the Dual Process Method is reasonable.

Reasonable uses of the Dual Process Method include:

- The individual resides within the Credit Union's direct service area but cannot reasonably attend a branch to ascertain their ID using the government ID or credit file methods.
 - Ex. mobility issues, elderly
- The individual will be a POA, Executor, Registered Product Beneficiary and resides outside of Beem's direct service area and cannot attend a branch to ascertain ID
- The individual signs on a business who operates within the Credit Union's service area and cannot attend a branch to ascertain ID.

Unreasonable uses of the Agent Agreement Method include:

- The individual resides within the Credit Union's direct service area and can reasonably attend a branch to ascertain their ID using the government ID or credit file methods.
- The individual resides outside of the Credit Unions direct service area and would like to open a new membership
 - Further information would be required to determine whether an exception would be made:
 - Why are they wanting to open an account with Beem
 - Do they plan on moving to the direct service area soon
 - What is the benefit to the Credit Union to open the membership

If the use of the Dual Process Method is determined to be reasonable, the AML Compliance Team can proceed to the [next step](#).

If the use of the Agent Agreement Method is not reasonable, the AML Compliance Team will respond to the requestor that we cannot proceed with this method due to the reasons identified.

4.3 Review Documents

The AML Compliance Team will review the documentation provided to ensure that it meets the requirements of the Dual Process method as outlined in the Identification Verification [Guidelines](#).

If the documents provided meet the Dual Process Method requirements the AML Compliance Team can proceed to the [next step](#).

If the documents provided do not meet the requirements the AML Compliance Team will respond to the requestor that we cannot proceed with the method due to the reasons identified.

4.4 Respond to Request

Once the request has been reviewed and the AML Compliance Team is in support of the use of the Dual Process Method, approval will be provided via email and staff must proceed with the steps as outlined in the Identification Verification [Procedures](#).

5 Record Keeping

Once the request has been completed, the AML Compliance Team will file the email in the Dual Process Approvals folder for record keeping:

- AML Compliance Inbox > Identification > Dual Process Approvals
