1 Purpose

This procedure outlines the steps required to be taken by the AML Compliance Department when reviewing and approving certain high-risk wire transfers.

For information on which wire transfers require AML Compliance Department approval refer to the Credit Union's [Wire Transfer Guidelines](#).

2 Notification

Wire transfer approval notification will come to the AML Compliance Department via an email notification through the CRM System.

2.1 CRM Alert

Notification for wire transfer approvals will come to the AML Compliance Department through a CRM Case escalation email:

After a notification is received the AML Compliance Department will open and review the case using the following procedure:

1. Within the email, proceed to CRM case by selecting the **Click Here** hyperlink
2. CRM Case will open in an internet browser

a.

3. Assign the CRM Case your yourself by clicking **Assign** and selecting **Me** from the drop down

a. 

4. From the case home page navigate to the bottom of the screen under **Regarding** and click the Case link
5. On the Summary screen conduct a review of the case and the wire request
6. Click to the **Timeline** tab to review the notes added through each stage of the case
7. Proceed to conduct the [Wire Review Process](#)

3 Wire Review Procces

After a CRM Wire Approval Case has been assigned to the AML Compliance Department, conduct the following steps to review the wire:

1. Review member's ECM file in Nautilus for:
 - a. Documents that have been collected per the appropriate EDD measures required for the type of [high-risk wire transfer request](#).
 - i. Outgoing wire transfer form
 - ii. Any supporting documentation
 - iii. Other documents as required
 - b. Applicable member documentation is on file and up to date
 - i. Member contract
 - ii. Business member supporting documentation (i.e. CSR, Director Listing, Articles of Incorporation)
2. Review the information provided to determine whether the request is reasonable and in line with what would be expected given KYM.
 - a. Purpose of payment
 - b. Source of funds
3. Conduct [Listed Person or Entity Searches](#)
4. Conduct open-source searches as necessary to assist with determining whether wire transfer is reasonable or whether any negative news is identified
5. Make a determination to [approve or decline the wire](#)

3.1 Listed Person or Entity Searches

The AML Compliance Department can consult the following lists for individuals and entities subject to sanctions:

- United Nations Act
 - [United Nations Security Council Consolidated List | Security Council](#)
- Special Economic Measures Act and the Justice for Victims of Corrupt Foreign Officials Act
 - [Consolidated Canadian Autonomous Sanctions List](#)
- Justice for Victims of Corrupt Foreign Officials
 - [Justice for Victims of Corrupt Foreign Officials Act \(Sergei Magnitsky Law\)](#)
 - When sanctions are imposed under Canada's Justice for Victims of Corrupt Foreign Officials Act, the names of any listed persons (both individuals and entities) are published in a schedule to the relevant regulation. Names may be added to or removed from a list by an amending regulation.
- Consolidated Canadian Autonomous Sanctions List
 - [Consolidated Canadian Autonomous Sanctions List](#)

Consult the following list for terrorist entities listed under the Criminal Code on the Public Safety Canada website:

- [Currently listed entities](#)

A Refinitiv search can also be conducted to determine whether the individual is listed on any sanctions or terrorist listing, PEP or HIO listing, or if negative media is identified.

3.1.1.1 Match to Listed Person or Entity Searches

If a match is determined the transaction requested must be declined immediately and [an unusual activity investigation](#) conducted to determine whether an STR will be required. The related membership will also be escalated for review under the [Listed Person and Entity Property Reporting Guidelines](#)

4 High-Risk Wire Approvals

The following types of high-risk wire transfers require AML Compliance Department approval prior to being processed

- [Sanctioned Countries](#)
- [Ministerial Directives](#)
- [Foreign PEP/HIOs](#)
- [Payable on ID](#)

4.1 Sanctioned Country Wires

Wire transfers being sent to or received from a sanctioned country pose a high-risk of sanctions evasion and/or terrorist financing to the Credit Union. Per the Credit Union's [Wire Transfer Guidelines](#) additional EDD measures must be conducted prior to escalating to AML Compliance Department for approval.

EDD measures that must be taken by staff for sanctioned wire transfers include:

- Obtaining purpose of payment
- Verify source of funds used to send the wire, outgoing wires
- Collect supporting documentation such as an invoice or sales order confirming amount and beneficiary
- Verify the relationship between sender and beneficiary

The AML Compliance Department will review the wire as well as the additional documentation and information obtained from the member to determine whether there are risks of sanction evasion or whether the wire is being sent to a listed person or entity. Open-source searches as well as conducting [Listed Person or Entity Searches](#) must be completed to determine whether the wire sender or recipient is flagged for sanctions or terrorism.

If there is concern of possible terrorist financing, sanctions evasion, or money laundering offences the wire request must be declined and the activity escalated to an [Unusual Activity Investigation](#).

4.2 Ministerial Directives

Wire transfers bound to or from, directly or indirectly, a country with an active Ministerial Directive pose a high-risk of sanctions evasion and/or terrorist financing to the Credit Union. Per the Credit Union's [Ministerial Directive Guidelines](#) staff are to contact the AML Compliance Department for applicable EDD measures that must be conducted. Once the measures have been completed staff must receive approval from the AML Compliance Department prior to sending or receiving a wire to a country with an active ministerial directive.

The current Ministerial Directives are:

- Russia
- Islamic Republic of Iran
- Democratic People's Republic of Korea (DPRK)
 - Also known as North Korea

A notification will be received to the AML Compliance Department that a wire is being sent to or received from a country with a Ministerial Directive and the following will be completed:

4.2.1 Islamic Republic of Iran – PROHIBITED

Wire transfers to or from the Islamic Republic of Iran, or Iran, are strictly prohibited by the Credit Union. This applies to all wire transfers in Iranian Rial currency.

If a request is received to send or receive funds to/from Iran, the transaction must be declined.

In addition, the AML Compliance Department must determine whether an STR is required to be submitted for the incoming or outgoing wire. Escalate the activity to an [Unusual Activity Investigation](#).

For the purpose of this Ministerial Directive, only completed transactions must be reported if the sole reason for reporting is that the transaction is inbound from, or outgoing to, Iran. Attempted transactions remain reportable in instances where the Credit Union has reasonable grounds to suspect that the transaction is related to the attempted commission of a money laundering or a terrorist activity financing offence.

4.2.2 Democratic People's Republic of Korea (DPRK) – PROHIBITED

Wire transfers to or from the Democratic Peoples Republic of Korea, also known as North Korea, are strictly prohibited by the Credit Union. This includes all wire transfers in North Korean Won currency.

If a request is received to send or receive funds to North Korea the transaction must be declined.

4.2.3 Russia

Wire transfers sent to or received from Russia, or in Russian Ruble currency, require EDD measures to be completed and reviewed before a wire transfer can be sent or received.

The AML Compliance department will conduct the following EDD measure:

- review for potential sanctions evasion by conducting [Listed Person or Entity Searches](#)

If a match is identified the wire must be declined and an unusual activity investigation conducted to determine whether an STR is required. The membership will also be escalated for review under the Credit Union's [Listed Person and Entity Property Reporting Guidelines](#)

If no match is identified, the AML Compliance Department will provide staff with the following EDD measures that must be completed and provided back for review:

- Obtain confirmation of source of funds
- Collect purpose of transaction
- For a wire with an entity sender or recipient, obtain confirmation of beneficial ownership for all entities involved
- Verification of the identity of any person/entity requesting or benefiting from the wire (this applies to existing members & needs to be done at time of transaction)

Once information and documentation are received back from staff, the AML Compliance Department will conduct an assessment of facts, context and indicators and determine whether the wire can be approved or declined.

If there is concern of possible terrorist financing, sanctions evasion, or money laundering offences the wire request must be declined.

4.2.4 Other Countries

A transaction may be deemed to fall within a Ministerial Directive even if it is not specifically directed to a specified country. An assessment of facts, context and indicators (ex. beneficiary details) must be completed to determine whether a transaction may be indirectly bound to or from a country with a Ministerial

Directive. This may include indicators such as items destined to border towns, third-party beneficiary details, foreign beneficiary addresses, etc.

If staff are unable to determine whether a transaction may be indirectly bound to or from a country with a Ministerial Directive, they are to escalate to AML Compliance for further review and guidance.

The AML Compliance Department will review open-source searches and conduct EDD measures to determine whether the wire falls within the above Ministerial Directives.

4.3 Wires for Foreign PEP/HIOs

Heightened due diligence is required when a wire transfer is initiated or received by a Foreign PEP or HIO. Foreign PEP/HIOs are more likely to be susceptible to criminal coercion and are considered inherently high-risk.

Per the Credit Union's Wire Transfer Guidelines staff are required to complete the following EDD Measures for wire transfers sent or received by a foreign PEP/HIO:

- Obtaining source of wealth ** FINTRAC Requirement
 - Source of Wealth is the origin of an Individual's total assets that can be reasonably explained, rather than what might be expected
- Determine the original source of funds for the wire
- Make a Third-Party Determination
- Collect the specific purpose of the wire
- Collecting supporting documentation for the wire transfer (*i.e. invoice, bank statement, sales receipt, etc.*)

COD will notify the AML Compliance Department when a request as been received for review and approval.

The AML Compliance Department will review the wire as well as the additional documentation and information obtained from the member to determine whether there are risks of coercion, sanction evasion or whether the wire is being sent to a listed person or entity. Open-source searches as well as conducting [Listed Person or Entity Searches](#) must be completed to determine whether the wire sender or recipient is flagged for sanctions or terrorism.

If there is concern of possible coercion, terrorist financing, sanctions evasion, or money laundering offences the wire request must be declined and escalated to an [Unusual Activity Investigation](#).

4.4 Payable on ID Wires

On a rare exception an incoming wire transfer may be sent as "Payable on ID" where the recipient does not hold a membership with the Credit Union. These must be reviewed and approved by the AML Compliance Department before accepting.

If notification is received for a payable on ID wire transfer, the AML Compliance Department will review the situation on a case-by-case basis and determine whether an exception will be made to accept the wire.

The Credit Union will not except any high-risk wire to be payable on ID, including high-risk industries, countries, etc.

If a payable on ID wire is escalated for approval, the AML Compliance Department will determine with the CAMLO, or CAMLO designate, what EDD measures will be required and whether the wire can be accepted.

5 Approving/Declining Wire Requests

Depending on the review by the AML Compliance Department, approval of the wire request, or declining the wire request may result. The following steps are to be completed depending on the outcome of the review conducted.

5.1 Approval

After the AML Compliance Department has conducted a review of the facts and context of the wire, the EDD measures taken, any additional information collected, and the wire has been deemed reasonable the AML Compliance Department can provide approval for the wire to be processed.

5.1.1 Approval in CRM Case

After a review of the high-risk wire has been conducted and approval is to be provided, the following steps must be taken in the CRM Case to record AML Compliance's review and approval. **Note **** This approval will become part of the member's record so do not include any sensitive information uncovered during review.

1. Reopen CRM Case by clicking the link in the email notification
2. In the Case click on the **Description** box and add your detailed approval comment (see note example below)
3. Click **Save**
4. Click on the **Decision** button
5. Select **Approved to Send Wire – Send back to COD**
6. Wire has now been approved

Note example

The AML Compliance Department conducted a review of the wire transfer, escalated due to a sanctioned country, ministerial directive, foreign PEP/HIO involvement. After a thorough review of the context and facts and information and documents collected, the wire is approved for processing. All documents collected by from the member must be uploaded to the member's ECM file.

5.2 Declining

After the AML Compliance Department has conducted a review of the facts and context of the wire, the EDD measures taken, any additional information collected, and the wire has been determined as exceeding risk tolerance, the AML Compliance Department must notify COD that the wire has been declined.

If the wire is being declined due to concerns with money laundering, terrorist financing, or sanctions evasion refer to the [Unusual Activity](#) and [Listed Person or Entity Property Reporting](#) sections below.

5.2.1 Declining in CRM Case

After a review of the high-risk wire has been conducted and the wire is to be Declined, the following steps must be taken in the CRM Case to record AML Compliance's review and findings **Note **** This approval will become part of the member's record so do not include any sensitive information uncovered during review.

1. Reopen CRM Case by clicking the link in the email notification
2. In the Case click on the **Description** box and add your detailed approval comment (see note example below)
3. Click **Save**
4. Click on the **Decision** button
5. Select **NOT Approved to Send Wire – Send Back**
6. Wire has now been Declined

Note example

The AML Compliance Department conducted a review of the wire transfer escalated due to a sanctioned country, ministerial directive, foreign PEP/HIO involvement. After a thorough review of the context and facts and information and documents collected, the wire transfer has been declined as it is outside of the Credit Union's risk tolerance. All documents collected by from the member must be uploaded to the member's ECM file for future reference.

5.2.2 Sunflower Record Keeping

If a wire transfer has been declined solely on insufficient information, and there are no concerns of money laundering, sanctions evasion or terrorist financing, a note must be placed in Navaera's Sunflower application that a review of the high-risk wire was conducted, what measures were taken, and that the wire was declined.

Log into Navaera, select Sunflower Application:

- From home screen enter Person Number in the search bar:
 - PERS_DXXX (Beem Person Number)
 - ORG_DXXX (Beem Organization Number)
- Select Member from list
- Select Details tab
- Select Notes from dropdown
- Enter a summary of the High-Risk Wire Review and findings including
 - EDD Measures completed
 - Summary of findings, including reasoning for declining
 - Date wire was declined
- Click Add Note

Note example

The AML Compliance Department conducted a review of the wire transfer escalated due to a sanctioned country, ministerial directive, foreign PEP/HIO involvement. After a thorough review of the context and facts

and information and documents collected, the wire transfer has been declined as it is outside of the Credit Union's risk tolerance.

6 Unusual Activity

If at any time during a completed or attempted incoming or outgoing wire transfer transaction, unusual activity is identified, the AML Compliance Department will conduct an Unusual Activity Investigation, refer to the [Beem - AML Admin - UAR and STR Reporting Guidelines and Procedures](#)

7 Listed Person or Entity Property Reporting

If at any time during a completed or attempted incoming or outgoing wire transfer transaction, Terrorist Property or Sanctions Evasion is identified, the AML Compliance Department will conduct an [Unusual Activity Investigation](#) as well as filing a Listed Person or Entity Property Report, refer to the [AML Admin - Listed Person Property Reporting Guidelines](#).
